19th December 2022

Dear Sir or Madam,

**NOTIFICATION OF ESSENTIAL MAINTENANCE WORKS
M1 Junction 29 Northbound and Southbound slip roads, and Bridge**

I am writing to let you know that we will be carrying out essential maintenance works to the existing bridge, and northbound and southbound slip roads on the M1 J29.

During our comprehensive scheme of work, we will:

- Remove vegetation to reduce sign obstruction and to allow future maintenance access
- Replace lighting columns and existing illumination signs
- Replace traffic signal poles, signal head, cables, ducting, traffic signal cabinet
- Replace existing waterproof system to the bridge and repair bridge joints
- Install additional street lighting to the roads

Once completed, all road users will benefit from improved road safety.

When will the work take place?

Work is due to start on **9th January 2023** and is scheduled for completion by **End May 2023**

Please note that all our planned works are subject to change due to weather conditions, significant events or unforeseen circumstances.

How will the work affect traffic?

To keep our programme for these works as short as possible and to minimise disruption to the local community, residents, businesses and road users, we will work as follows:

Street lighting, signs and traffic signals

- **Monday to Friday, 8pm to 6am**, Full overnight closures of the slip road, ring management of the roundabout gyratory and lane closures. Only one slip road to be closed at any one time.

Waterproofing and bridge joint

- **Friday 8pm to Monday 6am**, Full weekend closure of the bridge deck. Only one bridge deck to be closed at one time.

During these full road closures, we will put in place fully signed diversion routes which have been agreed with the local authority.

*Please note that whilst carrying out waterproofing and structural repair work on the bridge, there will be **NO** access for any vehicles including emergency services during that time.*

If you'd like more information about the different phases of our work or a copy of the diversion route drawings, please feel free to get in touch with us.

How will the work affect businesses and residents?

We will make sure that access to businesses and residences is maintained wherever possible. We will also have a dedicated Public Liaison Officer on hand to answer any questions.

We apologise for any inconvenience caused and will do our very best to complete the work as quickly as possible, keeping disturbances and noise to a minimum.

Contact Us

If you have any questions about this work or would like to arrange a meeting with us, please contact our **Public Liaison Officer** Leanne Gibson, as follows:

- Email: EMcomms@amey.co.uk

Alternatively, you can contact our National Highways Customer Contact Centre as follows:

- Email: info@nationalhighways.co.uk
- Telephone: 0300 123 5000

Yours faithfully,

Matthew Palmer
